

MR. SQUASH Privacy Policy

Last Updated: July 2026

1. Our Commitment to Your Privacy

Welcome to *Mr. Squash*. Your privacy is of the utmost importance to us at COMPAÑÍA PREMIUM DE VIDEO Y TV, SL (doing business as PremiumVR). This privacy policy explains how we handle information in our virtual reality application, developed by REBEL Studio.

The summary is simple: **We do not collect, store, use, or share any personal data from our users.** Your gaming experience is entirely yours and stays on your device.

2. What Personal Data We Do Not Collect

To be absolutely clear, we do not request or have access to any type of information that could identify you. This includes:

- Name, username, or email address.
- Data about your device, such as IP address or unique identifiers.
- Audio or video recordings.
- Information from your Meta or Pico account.

3. Data Processing

Mr. Squash processes spatial and skeletal tracking data locally on your headset to enable VR gameplay. Since we do not collect this data, it is not transmitted to our servers.

4. Third Parties

We do not integrate targeted advertising or data-harvesting tools. However, *Mr. Squash* uses **Unity Gaming Services (UGS)** to provide cross-platform global leaderboards. Unity may collect your chosen in-game nickname and score to display it globally.

Additionally, to download and run the game, you use Meta's or Pico's services, which may collect diagnostic data according to their own policies.

5. Data Deletion Requests

In accordance with Meta's and Pico's guidelines, users must have a way to request the deletion of their data. Since we do not collect any personal data, there is no data for us to delete. Your local progress can be removed by uninstalling the application.

6. Children's Privacy

We respect the privacy of children. Our application does not knowingly collect any personal information from children. The use of VR devices is subject to Meta's and Pico's Terms.

7. Changes to Our Privacy Policy

If we update the application in the future to include functionality that requires data collection, we will update this policy prominently.
